30 Removing Bleeders From Filters

We have had a large number of bleeders fail that are on top of the pressure, and recirculation hydraulic filters. See picture below.

Because of this failure, we've decided to remove the bleeders. The best time to do this is when you receive a call that the item is failing and/or the power unit comes back into the yard.

Below is the part number for the KIT that replaces the bleeder in the pressure filters. The fitting is a SAE to JIC fitting with JIC cap.

1001600 - Kit-Resirc Press Bleedr-w O'Rg
